Christina Mastroeni

Kean University
1000 Morris Avenue
Union, NJ 07083

Dear Mrs. Mastroeni,

I am writing to express my interest in the Software Engineer position in your company, Kean University, as advertised. As a Computer Science student at Kean University, I am more than excited to bring my skills and experiences and contribute to your team.

My current role as Desk Manager at Kean University has honed my leadership and problem-solving abilities. Managing a team of over 20 personnel has developed my organizational skills and attention to detail. Furthermore, conducting security desk rounds in my position strengthened my commitment to security measures along with crisis management skills when issues arise.

As a Resident Assistant, I organized and executed events to enhance the campus living experience, demonstrating my organizational and interpersonal skills. I am adept at overseeing and mediating situations when necessary, showcasing my ability to handle conflict tactfully.

At Coding Coalition, I co-founded the organization dedicated to tutoring young children in Java and Python. This experience allowed me to develop and deliver effective programming lessons, which contributed to the growth of aspiring young coders. The experience also allowed me to stay on top of the fundamentals of both languages, giving me a deep understanding.

My academic background includes pursuing a BS in Computer Science at Kean University, with a Minor in Mathematical Sciences. I have gained proficiency in the Java programming language through my relevant coursework such as Data Structures, Computer Architecture, Computer Systems, and Object-Oriented Programming.

I would welcome the opportunity to further discuss my qualifications and learn more about the opportunity to join your team. Please feel free to contact me at any time to schedule an interview. Thank you for considering my application.

Sincerely,

Sebastian Joseph
